

The background of the image is a soft-focus photograph of a natural landscape. It features a calm river in the foreground with some green algae. On the left bank, there's a dense forest of green trees and bamboo. In the background, there are several large, dark, craggy limestone mountains. The sky is a pale, hazy blue.

G19 STUDIO

WHERE **ai_** COMES TO LIFE

who we are_

We are a team of Entrepreneurs, AI Engineers, Data Scientists, Product Managers, and CTOs with 150+ years of combined platform development experience.

what we do_

We bring AI products to life. We are the fractional strategy, technology, AI, and product partner for companies—supporting fully from design to delivery.

services_

Fractional Teams

Fractional Teams &
Strategy;
CTO-CAIO-CPO

AI Application Development

engagement models_

Outsourced Build: Our team takes full responsibility for delivering your project, allowing you to focus on your core business. We handle everything from planning and development to deployment and maintenance, ensuring a seamless build.

Fractional Team: Gain access to experienced C-level expertise on a part-time basis. Our fractional CTO, CPO, or CAIO services provide strategic guidance and technical leadership through scope, fundraising, and delivery.

G19 Dedicated Team: Embedded into your team, our dedicated team members work alongside your staff, integrating seamlessly into your workflows. This model offers the flexibility to scale your development capabilities quickly while maintaining control and collaboration with our experts.

payment models_

Fixed Cost: Our fixed price model offers clear, predictable costs for well-defined projects. With thorough planning upfront, enjoy a hands-off experience with regular updates, making it easy to manage your budget and expectations.

Cost + Equity: Tailored for small and growing teams, our cost + equity model reduces upfront costs by allowing a portion of the payment to be made through equity. This approach accommodates budget constraints while fostering a partnership where both parties are invested in the project's success.

Time & Materials (Pay As Work is Completed): Ideal for evolving projects, this flexible approach bills for actual work at hourly rates. With staged development, constant communication, and regular feedback, you can adjust, pivot, or pause as needed.

G19 STUDIO

We do Traditional AI. We do Generative AI. We do
Fractional Teams. We do the future.
